*It's great to have solutions...*

**1.**  
The Liftomatic is only designed to lift up projectors, the system is not applicable for personal transport or general lifting purposes.

**2.**  
Use the Liftomatic only on level services and always apply the brakes of the System.

**1.**  
Take off the lid of the flightcase and position the projector on top of the platform. Max. load of the projector is mentioned on the Liftomatic serial number plate.

**2.**  
Pull out the handle and insert it in the rear panel of the liftomatic. Depending on the model the handle can be stored in the service compartment under the lid of at the front of the flightcase.

**3.**  
Lift up and down the handle and the projector platform will lift with each pump movement.

For lowering the projector pull the knob firmly. The knob is positioned straight above the pump handle.

**Warning:**

- **The system is a manual activated lift system; lowering of the system is performed by hand; there is no electrical safety measure. The operator must be know with the function and danger of the system.**
- **The Liftomatic is NOT suitable for lifting persons or using it as a working platform.**
- **Never overload the system.**
- **Do not place any object in the lift mechanism**
- **Only authorized personel is allowed to operate the system.**
- **Check periodically the oil level of the system.**
